London, Jan. 29.—"I'm in this business to make money, and I intend to make it." This is the way Battling Nelson expressed

"Of course," he remarked, "I have obtained a great measure of success al-ready, but I am not going to retire. I'm as good, if not better, than ever, and think myself capable of at least doubling

my present estate."

After my tour round the foremost parts of the British Isles I intend crossing to Denmark, when I hope to be accompanied by my father. We mean to do hings in style, for I wish to let the people in my native country know that we have risen from quite a humble position to something of standing."

Nelson further remarked that after vising Copenhagen he intended touring ing Copenhagen he intended touring Norway. Sweet, Japan, China, Australia, crossing the Pacific ocean to Hawisan Islands, and on to California.

"We have a bit of stuff with us," the boxing wonder remarked, "and we mean to enjoy curselves and at the same time transact some business."

Nelson is at a loss to understand why bigger purses should not be obtained in England than in America.

"Here in London, with all your 7,000,000 people, you don't cater for them." he remarked. "We have not that number in all our states, yet look how we drew the enormous amount of over £13,000 at the flight town of Goldfield, in Nevada, on the day of my flight with Gans, in September." "I intend staying in England for at

"About a year ago I wrote to the Miles Medical Co., asking advice, as I was suffering with heart trouble, and had been for two years. I had pain in my heart, back and left side, and had not been able to draw a deep breath for two years. Any little exertion would cause palpitation, and I could not lie on my left side without suffering. They advised me to try Dr. Miles Heart Cure and Nervine, which I did with the result that I am in better health than I ever was before, having gained I pounds since I commenced taking it. I took about thirteen bottles of the two medicines, and haven't been bothered with my heart since." MRS. LILLIE THOMAS.

It is irteresting to hear the opinion of Nelson on the relative abilities of English and American boxers. Nelson is opinion that England is as well, if no better, scryed than America in the bantamwight class. He regards Abe Attell as the greatest lad in the bantam class in America, and the man to oppose either Joe Bunker or Owen Moran at 8 stone 5 pounds. A witness of the recent battle between Attell and Jimmy Welsh, Nelson said: "Attell displayed remarkable activity, and Walsh, who had hitherto enjoyed a great reputation, was outclassed from the start."

Asked, as a parting shot, what he thought of Young Corbett and Terry Mc Govern, Nelson replied that he thought there was little fight left in either of these men now."

BERT IS OUT. San Francisco, Jan. 28.—J. Cal. Ewing today received a telegram from Eugen. F. Bert, tendering his resignation as president of the Coast league. Mr. Bert has been successful in his entorist to mak good legal connections in Chicago, and for this reason wishes to sever his connection with the baseball organization.

ON THE RACE TRACK. Sport Fair But Course Heavy at Em-

eryville Yesterday. San Francisco, Jan. 28.—The track at Emeryville today was heavy, but the sport was fair. Ramsey's Orchan got away well in the mile and a sixteenth race, went to the front in the first quarter and remained there all the way. The six furiongs race was hotly contested and was won by Blagg in a drive.

First race, three and a half furiongs—Raconteur, 113, W. Duga, even, won; Billy Watkins, 114, L. Williams, 6 to 1, Way to Nevada Looking for Fight.

Harry Pollock and "Young Corbett" (William Rothwell), ex-featherweigh, champion of the world, arrived in the city from Denver yesterday afternoon and last evening occupied a box at the Orpheum. The pair are going to Nevada where Young Corbett hopes to secure a battle with Kid Herman. It is understood that loe Gens has come to Corbett' rescue and proposes to train the little fellow and get him in good condition. Gans thoroughly believes that the Denverite has a good fight left in him and says the only thing needed is for Corbett to get in proper shape. If Gans can accomplish this he will be doing wonders. Since Britt got the shady decision over Corbett the latter seemed to lose heart and would not train properly. It now remains to be seen whether or not he will train, and if he can make a good fight.

Champion.

It is likely that another world's champion mare may be produced from the pacific coast. It has been remarkable the number of fast mares that owe their origin to California, among the more recent being the pecifics Lou Dillon, 1:58½, and the wonderful race mare, Sweet Marie, 2:02.

There is yet another mare that has shown her ability to become a very fast mare and possibly a world's champion. This mare has had but little preparation, although two years ago she showed a wonderful burst of speed for a mile, but met with a slight accident and was laid up.

She now, however, has again demonstrated her ability to trot fast and without apparent effort. The latest developments are recorded in regard to Sonoma Girl, driven by her owner. J. D. Springer, who trotted a mile in 2:07 at the Christmas matinee of the Los Angeles Driving club at Agricultural park, scoring the lowest mark ever made at a matinee in the state.

Sonoma was unpaced, either by runner or trotter, and not once in the tour. Mrs. R. D. Miss Winnie Evans was host an elaborate party Tuesday evelt her home, the rooms being beay decortated with cut flowers, and Myrtle Evans serving punch in the ing room. Her guests numbered a a very delightful evening was sp

the state.

Sonoma was unpaced, either by runner or trotter, and not once in the journey did her driver have to touch her with his whip. When the great mare crossed the wire the applause was tremendous. It is believed by experienced horsemen that Sonoma Girl could have stepped the mile in 2:06 under improved conditions. The track was slightly cuppy and in addition the mare lost her stride in scoring for the word because the gatekeeper allowed a double team to cross the track in front of her.

Had the mare been paced she could have taken off the two seconds with ease. Had the mare been paced she could have taken off the two seconds with case.

Sonoma Girl was a contestant for the Hamburger Cup in which there was only one other competitor, the others being scratched.

The owner of Danube allowed that horse to start in the event and only lasted one heat, when drawn.

In the second heat Sonoma Girl trotted her record mile, showing that the previous heat had been mere play for her. The half in the exhibition was made in the last half in 1:03 and was not all in the last half in 1:03 and was not all in the last half in 1:03 and was not all in the sahiling as she pleased in 2:07. During her earlier performance she showed her ability to trot easy miles better than 2:10 over poor tracks, and it is believed that should she fall into the hands of an experienced trainer and pointed especially for a record over a good track it would be possible for her to shade her recent trial at least three seconds. They are of various forms and devices calculated to attract the attention, particularly of the young, and have had a great run. Much ingenuity and a great run Much ingenuity and a great variety of talent is being displayed by manufacturers on both sides of the water in securing bizarre and striking effects in calendars, and one thing I am glad to see, is the introduction of western mining camp, range and prairie scenes. Such scenes will always take with western business houses especially. Yes, the searon for 1908 has now actively begun, and calendar goods for the next year are being pushed."

Forty-two cars of coal arrived ves erday, which greatly relieved the lo al stringency. The Central Coul & oke company received 15 cars, the Martin Coal company, seven, the Kem nerer company, three, the Bamberger 0 cars, and the Citizens' company even. The day's receipts amounted o 1,600 tons. With warm weather and unshine now on, the cutlook is more meouraging than it has been for some weeks. The receipts were divided mong the various dealers, who delivered to their most needful customers. A. C. Ridgeway, general manger of the Rio Grande, is in this city oking after the movement of coal wer the Rio Grande, and according to V. Derrah, assistant general freight gent of the R. G. "TRIB" cleans the entire system. The examination of the bath water after a few days' treatment will at once convince you of this fact.

T. F. Ledger, 319 Seneca Street, Seattle, Wash., writes:

"You ask me what I think of "TRIB."

Well, it is the greatest discovery for cleaning out poison blood and system on earth. I took it with the idea that if it cleared the system of tobacco and aicohol poison, it also would do the same thing to blood poison of which I have been a sufferer for years, and I can truthfully say it has served the purpose after spending hundreds of dollars on worthless advertised remedies for blood poison as well as a cure for tobacco and liquor habits. Inquiries cheerfully answered if stamp is enclosed.

It is our belief that no remedy upon the market today will come nearer leaving your system after treatment as pure and clean as that of a new born babe, as "TRIB" will. A trail will at once convince you that "TRIB" is all we claim for it.
